The Sporting Event of the Ages.

—By Ripley.

HAWKER'S DARING ATTEMPT TO CROSS THE ATLANTIC Dwarfs Every Other Sporting Event Into Insignificance.

Harry Hawker and Mackenzie Grieve took the supreme sporting chance. Every other spectacle of sport pales into insignificance before the dramatic attempt of these two daring men. They were conscious of the odds against them. They jumped off into the vastness of the Atlantic, with only a compass and a sextant to guide them, in the vain hope that their frail craft might miraculously sail through the perils of the elements to another continent. How pitiful do such other sporting events as a boxing match, a world's series base ball game, a Kentucky Derby, a golf tournament or an Army-Navy game seem by comparison! How infinitesimal does the giant Willard seem! However, the Atlantic will be crossed. Keep your eyes on these airmen who are preparing for the flight. They are the world's supreme sportsmen.

'GEN.' COXEY'S BILLS REACH CONGRESS

Ask Referendum on Constitutional Changes and Loans to Municipalities.

Two bills, one providing for an initiative and referendum for federal laws and constitutional amendments, and the other for the issue of non-interest-bearing bonds upon which the federal government will lend money to municipalities to conduct public works, have been introduced in the House and Senate at the request of "Gen." Jacob S. Coxey of Ohio.

"Gen." Coxey insists that if these measures are put through the problems of unemployment which confront the country owing to demobilization and cessation of war munitions work will be solved. "If there is no action on these bills," he said today, "I will call for a million volunteers to march upon Washington to present to Congress requests that these laws be enacted." His idea is a second Coxey's army to visit the National Capital to impress upon the legislators the necessity of doing something.

Duplicates Bill of Early 90s. His bond issue bill is practically identical with the measure which "Gen." Coxey put forward in the early 90s and culminated in the march on Washington, when the army, some 300 strong, reached the National Capital and went into camp at Brightwood. An attempt to hold a session of the Capitol steps was halted by the police.

Under the bond issue bill, which was introduced by Representative Sherwood of Ohio in the House at the request of "Gen." Coxey, the United States would issue legal tender notes upon the receipt of twenty-five-year, non-interest-bearing bonds to any state, territory, county, township, municipality or incorporated town or village. The bonds are to be limited to one-half of the assessed value of the property in the state, territory, county, etc., which makes the loan. They are payable 4 per cent annually until the principal has been entirely paid up.

Terms of Referendum Measure. "Gen." Coxey's initiative and referendum bill was introduced in the Senate by Senator Pomeroy of Ohio, upon request. By its provisions, when 500,000 voters petition for a vote on a law or constitutional amendment at a general election, it shall be taken. When 1,000,000 voters petition for a vote on a proposed law or constitutional amendment at a special election, it shall be taken. "Gen." Coxey said that if such a law were in force now it would be easy to get a vote of the people on the proposed league of nations.

ICEBERG-DAMAGED SHIP IS ABLE TO REACH PORT

Liner Cassandra, in Contact With Obstruction Off Cape Race, Arrives at St. Johns.

ST. JOHNS, N. F., May 25.—The Donaldson liner Cassandra, which struck an iceberg 104 miles off Cape Race, arrived tonight. The vessel struck a submerged section of the berg. Immediately passengers and crew were called to quarters and the ship's boats swung out. Passengers were escorted to deck with but slight confusion. There was no excitement, according to the ship's officers, who stated the damage was limited to springing of several plates on the starboard side below the water line above of amidships. The ship made little or no water, and after sending out calls for help, came here at top speed.

On the arrival here of the Cassandra it was learned that at 6 a.m. today in a dense fog east of Cape Race, she grazed an iceberg, slightly damaging her starboard side over her engine room. Some water entered, but the damage was temporarily repaired and the ship put in here to complete repairs with the aid of a tug. It is expected she will resume her voyage within forty-eight hours. The passengers comprised chiefly women and children.

ENJOYS MUSICAL PROGRAM.

Acacia Lodge Holds Ladies' Night Dinner.

An elaborate musical program featured the ladies' night dinner and entertainment given by Acacia Lodge, No. 18, F. A. M., Saturday night at the New Ebbitt, in the absence of the scheduled speaker, Capt. Royal C. Johnson, representative in Congress from North Dakota.

The invocation was pronounced by the Rev. Hubert Rex Johnson, Samuel T. Farmer, master of the lodge, delivered the address of welcome. On the musical program were Miss Netta Craig and G. W. Wrighton in a duet, "Calm As the Night"; S. M. Fabian and Miss Jacobs in solos, "Wheeler Wilson," who sang "Her Road" and "The Dawn," and A. B. Pierce in selections.

INCOME TAX DUE JUNE 15.

Officials Call Attention to Time for Second Installment.

The bureau of internal revenue is directing the attention of taxpayers to the fact that the second installment of the income tax is due June 15 next. As that date falls on Sunday, however, the second payment may be made on June 16 without the addition of penalties.

Taxpayers holding government certificates of indebtedness maturing on the dates when the tax installments fall due are requested to use them in the payment of their tax, which will greatly assist the collectors and hasten in the redemption of these certificates. Of \$2,000,000 taxable returns 1,210,000 were accompanied by installment payments, the others paying in full.

SAYS \$47 A TON FOR RAILS IS NOT EXORBITANT RATE

George F. Peek Comments on Order Made "Under Protest" by Railway Director Hines.

The price of \$47 a ton for 200,000 tons of steel rails, recently ordered by Director General Hines of the United States Railroad Administration "under protest" is not exorbitant and is at least \$5 a ton less than the price that could have been obtained without the work of the industrial board, according to a statement of George F. Peek, chairman of the board until its dissolution recently.

Had Mr. Hines taken as his basis for deductions the price of \$30 a ton before the war, Mr. Peek said, he must have arrived at the conclusion that the price of \$47 a ton was fully justified. To the price of \$30 a ton now must be added \$20 to cover increased cost of labor and a further amount for increased cost of transportation. Mr. Peek asserted, adding that the price of \$47 a ton was \$5 lower "than the best the railroad administration was able to secure for itself before the industrial board considered present costs of production."

WOMEN OF CHATTANOOGA, TENN., WILL BE GIVEN THEIR FIRST OPPORTUNITY TO VOTE IN THE MUNICIPAL ELECTION TO BE HELD IN JUNE.

Miss Isabel Klein of Clarksville has the distinction of being the only woman practicing attorney in the state of Arkansas.

WOULD GIVE PROMOTION TO REGULAR ARMY MEN

Bill Favors Those Who Whipped Into Shape Units of the Expeditionary Forces.

In order that credit and advancement may be given to those who whipped into shape the units of the American expeditionary forces and so made the greatest military victory of all times possible a bill has been introduced in the House by Representative Sabath of Illinois.

He proposes to give those Regular Army men who served honorably on the active list as temporary commissioned officers and who have less than fifteen years' service in the Regular Army a chance to qualify for commissions.

The bill would give them an opportunity to take the mental and physical examination for commission in any branch of service they may select, and in the event of appointment, to be commissioned in the grade they would have held had their entire service been as a commissioned officer and promotion had come to them through the ordinary course of events. It is specifically directed that such examination be no greater in severity than examinations ordinarily given high school graduates, in addition to subjects covering the duties in the branch of service to which they desire appointment.
